Cybersecurity and information security professional with 8+ years of global experience. A strong interest in ethical hacking, penetration testing, vulnerability analysis, and network security. Hard-working, energetic, personable, and technical-minded individual. Seeking to leverage my professional and personal experiences in an information security role. **I also possess:**

- Experience in scripting languages including Php and Bash.
- Excellent task management. Ability to handle multiple projects simultaneously.
- Experience with security tool-kits such as Kali Linux, Metasploit, and Burp Suite Pro.
- Proficient in translating information from technical to executive/management terminology.

Core Competencies

Bash, PHP, HTML, CSS, JavaScript, SQL, AWS, Git, Regex, Docker, Penetration Testing, Linux/Unix Administration, Web Development, Powershell, Cybersecurity Documentation, OSINT, R&D of Cybersecurity Proof of Concepts.

Projects

Recon-tainer
- A docker container which enumerates sub-domains and then filters out injection point parameters and much more.

EZ Tmux
- Simplest complied config which makes tmux very easy to use. It has the ability to send keystrokes into the shells automatically.

Job Experience

Penetration Tester   June 2018 — August 2020
Hassan Solutions SMC PVT LTD.   Islamabad, Pakistan
